

# Continuing Undergraduates Fall 2022 Cohort

## 2022 COHORT COST OF ATTENDANCE FOR 2023-2024

Some or all instruction for all or part of the Academic Year may be delivered remotely. Tuition and fees have been set regardless of the method of instruction and will not be refunded in the event instruction occurs remotely for any part of the Academic Year.

The University of California Board of Regents approved a multiyear [Tuition Stability Plan](#) on July 22, 2021. The plan helps students and family's budget for a UC education by keeping UC tuition stable and predictable and providing new resources for financial aid.

Beginning fall 2022, tuition will be adjusted for each incoming undergraduate class but will subsequently remain flat until the student graduates, for up to six years. For undergraduates who first enrolled in fall 2021 or earlier--including all current undergraduates--tuition will stay flat at current rates for the duration of their enrollment, up to six years. The plan will be up for reauthorization by the Board of Regents in five years.

Use this estimated cost of attendance if you were admitted Fall 2022 (Cohort 1) to help determine how much money you'll need to attend UC San Diego and how much financial aid you may need to meet that goal. Your actual costs may differ. For more information on each Cost of Attendance element visit our [Financial Aid Terms](#) webpage.
