Summer 2025: Student Aid Index (SAI)

What is a SAI?

- The [Student Aid Index \(SAI\)](#) is an index number used to establish your financial aid offer. Your SAI is calculated using information that you (and other contributors, if required) provide on the *Free Application for Federal Student Aid* (FAFSA) or California Dream Application (DREAM)
- A student's financial aid need is determined by subtracting the SAI from their total cost of attendance
 - Need determines a student's estimated eligibility for aid

What is the source of data used in SAI calculations?

- The SAI is based on a formula that considers income, assets, and family size as reported on your aid application
- The SAI range is -1500 to 999999
 - A negative SAI indicates higher financial need

Summer 2025: SAI, COA, and Need Determination

What is Academic Year financial aid “Need”?

- Academic Year "Need" is the difference between the [UC San Diego cost of attendance](#) (your estimated costs) and your student aid index (SAI), as determined by your FAFSA or DREAM application
- Students with Academic Year “Need”, a valid 24-25FAFSA or DREAM application, a valid SAP status, and meet the Summer Session enrollment requirements will be considered for a summer aid offer

Note with special session, the financial aid disbursement date is set based on the start date of the special session. This date may occur after the applicable tuition and fee deadline of 6/23/25. If the student is enrolled in multiple sessions that will also impact disbursement dates and amounts.

For this example, the special session course starts 7/2/25 so although there will be a credit once financial aid disburses it will be after the special session fee payment deadline.
